

12V/24V ACCESSORY OUTPUT KIT

4*USB 5V/6A max. - 2*12V-24V/90W max.

POWERplus® Azor

12V/24V Accessory Output Kit

4*USB 5V/6A max. – 2*12V-24V/90W max.

The POWERplus Azor is an inverter kit which can be used in combination with a 12V or 24V (car) battery. The Azor kit has 2 parts:

- Cable clamp with female cigarette lighter output port
- 12V-24V inverter with 2 * 12-24V DC cigarette lighter output ports and 4 USB 5V output ports

4 USB 5V output (6A max. total)
2 DC12~DC24 output (90W total)

Cigarette lighter input cable clamp

Combine with solar cell and 12V/24V battery for compact energy station

Suitable for use in car and truck
12~24V multi voltage

Technical details:
 Input: DC 12V-24V
 Output: DC 12V-24V, 90W max.
 USB 5V, 6A (30W) max.
 Fuse: self-healing fuse
