LED Lantern Mosquito Repeller

The POWERplus Fly is a portable LED lantern with integrated electric mosquito repeller/killer.

Most of the camping lights comes with bright white light: the Fly comes with a warm white light which provides a more cozy environment.

By using the integrated solar cell, you can charge the POWERplus Mosquito by using solar energy. Offcourse you can also charge by USB. The integrated Lithium rechargeable 1.200 mAh battery guarantees a strong performance of the LED light and the mosquito repeller

Warm white LED light with 3 brightness modes

Electric mosquito repeller

Integrated hanger and IPX6 waterproof

Micro USB charging input

Technical details:

Brightness 100%	80 lumen
Brightness 50%	40 lumen
Brightness 20%	15 lumen
Max. working time 100%	4 hours
Max. working time 50%	8 hours
Max. working time 20%	20 hours
Lantern LED	0.5W / 2700K
Ultraviolet LED	4 * 0,06W
UV wave lenght	360-400 nm
Max. UV working time	15 hours
Grid voltage	500V
Li Polymer battery	3.7V/1.200mAh
Charging input	5V/1A
Full charge time by USB	2 hours
Full charge time solar	20 hours
