

POWERplus[®]

SOLAR | USB WARM WHITE

LED CAMPING LANTERN

WITH MOSQUITO ZAPPER

HORSE

POWERplus® Horse

Solar | USB Warm White LED
Camping Lantern
with mosquito zapper

The POWERplus Horse is a design LED camping lantern with integrated mosquito zapper. The warm white light creates a cosy lighting and the brightness can be adjusted to the required level (100% and 50%). Also the light has a flashing (SOS) function.

Mosquitos are attracted by the UV light and when they hit the electrical wire, they will be electrocuted by the electric wire.

Integrated solar cell and hanger

3 modes warm white light
100% | 50% | Flashing (SOS)

UV lights attracts mosquito

Rain waterproof IP44

The Horse can be powered by the integrated solar cell and by USB (type C input) as well. With integrated handle so you can hang the lantern as well. Rainproof (IP44).

The POWERplus Horse is your perfect companion for camping, boating, garden etc..

Technical specifications:

Warm white LED full	80 lm
Warm white LED half	50 lm
UV wave length	365-395
Mosquito zapper voltage	1.000V
Battery	Li-Ion 18650 1.800 mAh
Working time zapper	6 hours
Working time LED full light	3 hours
Working time LED half	4 hours
Working time zapper/full LED	2 hours
Working time zapper/half LED	3 hours
Input voltage/current	5V/2A
Solar cell	5V/140 mAh
