## LED LANTERN – 2 LIGHT MODES

Bright light / moving LED flame light - powerbank

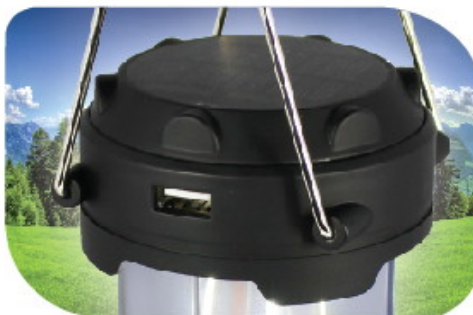

The POWERplus Koala is a solar and USB powered LED lantern with the following features:

- Ultra bright white light
- Moving LEDs realistic flame effect light
- Powerbank

Ultra bright white light and realistic flame effect moving light

Powerbank function: USB output 5V/1A  
For charging mobile phone, GPS etc.

Switch between lighting functions and transforming to compact transport item

Dual power: powerful included 2.600 mAh Li-Ion rechargeable battery or 3\*AAA batteries (not incl.)

Rechargeable by USB or solar power  
Integrated 60 mA solar cell

### Technical parameters:

Battery 18650 Li-Ion rechargeable 3.6V / 2.600 mAh

Solar cell PET Layer Solar Panel 5V/60 mA (0.3W)

1 hour solar charging provides:

- White light: 1 hour
- Flame light: 3 hours

Charging time by solar for full battery around 45 hours.

Charging time by USB for full battery around 6 hours

USB output: 1A max.

Light time fully charged battery:

- White light: 15 hours
- Flame light: 72 hours

Material: ABS coated with TPR
