

POWERplus[®]

SOLAR - USB POWERED

POWERBANK 10.000 mAh

INTEGRATED CHARGING CABLES

MANTA

POWERplus® Manta

Solar - USB powered

Lithium-Polymer Powerbank 10.000 mAh

Integrated charging cables

The POWERplus® Manta is a solar powerbank with a battery capacity of 10.000 mAh (effective output 6.000 mAh) with some very special features:

- Integrated charging cables.
Out: Type C | micro USB | 8-pin In: USB
- Integrated stand holder for mobile phone
- Detachable charging cables: can be used for other chargers or powerbanks
- Integrated 2 LED flashlight

The POWERplus® Manta has 2 USB outputs (2.1A total output) and a micro USB and Type C in-port (2.1A input). Compact in size but great in performance !

10.000 mAh (37Wh) battery | 6.000 mAh output

Integrated charging cables

Built-in flashlight and status indicators

Detachable charging cables

Handy integrated mobile phone stand

Technical details:

- Lithium-Polymer battery 3.7V / 10.000 mAh
- Solar cell 0.5W
- Type C and micro USB input 5V/2.1A
- 2* USB output: 5V/2.1A total
- Battery status indication: 25 - 100%
- 4 integrated cables (detachable):
 - USB in
 - Type C out
 - Micro USB out
 - 8-pin out
