# MOSQUITO

# POWERplus® Mosquito

Solar – USB powered  
LED LANTERN MOSQUITO KILLER

The POWERplus Mosquito is a portable LED lantern with integrated electric mosquito repeller/killer. By using the included 1W solar cell, you can charge the POWERplus Mosquito by using solar energy. Offcourse you can also charge by USB. The integrated Li Polymer 2.000 mAh battery guarantees a strong performance of the LED light and the mosquito repeller

LED light with 3 brightness modes  
2.000 mAh Li Polymer battery

Electric mosquito repeller

Integrated hanger and IPX6 waterproof

Micro USB charging input

Rechargeable by USB and external solar cell

Brightness 100%	180 lumen
Brightness 50%	90 lumen
Brightness 20%	30 lumen
Max. working time 100%	4 hours
Max. working time 50%	8 hours
Max. working time 20%	20 hours
Lantern LED	1W / 6000K
Ultraviolet LED	4 * 0,06W
UV wave lenght	360-400 nm
Max. UV working time	30 hours
Grid voltage	500V
Li Polymer battery	3.7V/2.000mAh
Charging input	5V/1A
Full charge time by USB	3 hours
Full charge time solar	12 hours
Waterproof (lantern)	IPX6
