FOLDABLE COMPACT  
**SOLAR CHARGER**  
USB 5V OUTPUT

**NARWHAL**

# POWERplus® Narwhal

## Foldable Compact SOLAR CHARGER

### USB 5V Output

The POWERplus Narwhal is a solar charger equipped with 2 x 3,5W solar cells which can provide an effective output of 5W (1A).

The POWERplus Narwhal is equipped with a smart USB PCB chip which restarts the charging process automatically every 5 minutes.

This means that when the charging current is affected by clouds or other temporarily shadow conditions, it will only affect the charging process short term, as the PCB will do an automatic restart every 5 minutes.

Powerful 2 x 3.5W cells

Foldable in easy to carry

Charging mobile phone and mobile devices

Auto-restart every 5 minutes optimized for charging in half cloud conditions

Optimized shape for fitting trekking backpack

Optimized shape for attaching on tent

Solar cells monocrystalline:	2 x 3,5W	
Efficiency cells:		> 18%
Output voltage		5V USB
Output current		1A max.
Material of bag		600D polyester
Weight:		480 gram
Size:		64,5 x 28 cm
