

DYNAMO | SOLAR | USB POWERED
POWERBANK 10.000 mAh
DETACHABLE DYNAMO GENERATOR
INTEGRATED CHARGING CABLES

RHEBOCK

POWERplus® Rhebock

Dynamo - Solar - USB

Powerbank 10.000 mAh

Meet the POWERplus Rhebock, a state-of-the-art powerbank that's truly unique. It's designed to keep your devices charged no matter where you are, featuring an integrated solar cell and a detachable, separately usable dynamo generator. This means you have multiple reliable ways to recharge, making dead batteries a thing of the past! Equipped with two USB-A output ports (5V/3A) and a versatile USB-C port that functions for both input and output (5V/3A), you can charge multiple devices simultaneously.

Never forget your charging cables again! The Rhebock includes an integrated USB-A charging cable for easy powerbank recharging and a built-in USB-C output cable for charging your devices on the go.

A powerful, integrated LED light adds essential utility, providing illumination whenever you need it most.

The POWERplus Rhebock is your most reliable companion for emergency situations, outdoor adventures, camping, hiking, boating, and any time you need power independence.

Unique design with detachable generator

Built-in powerful LED lighting

Compact design with 2 USB-A and 1 USB-C outputs

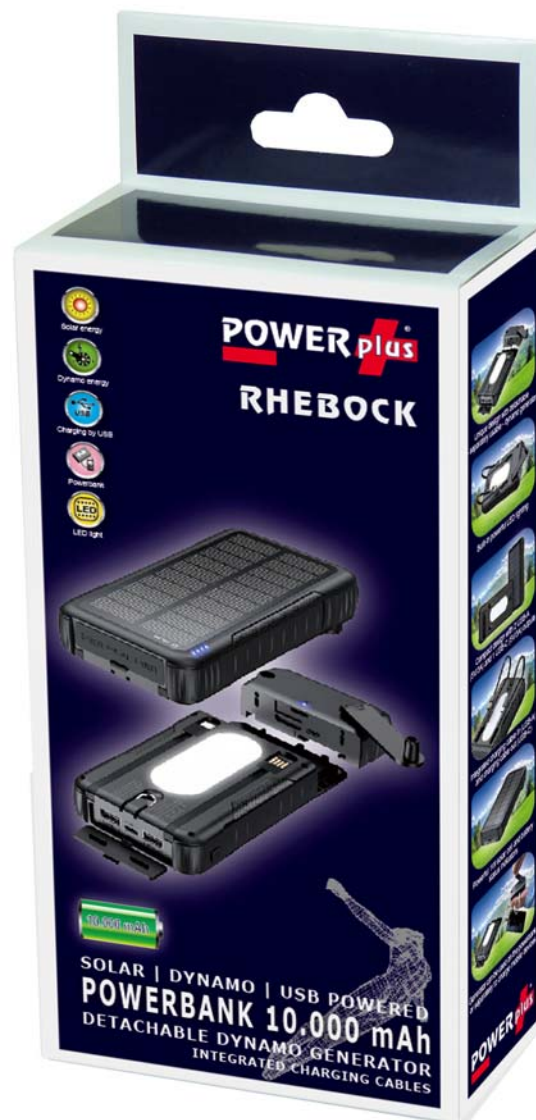

Integrated charging cable in (USB-A) and charging cable out (USB-C)

Powerful 1W solar cell and battery status indicators

Detachable dynamo generator to charge mobile devices

Technical details

Battery:	Li-Polymer rechargeable 3.85V / 10,000 mAh (38.5Wh)
Solar cell:	5.5V / 1W max.
USB-C in/out:	DC 5V / 3A max.
USB cable in:	DC 5V / 2A max.
Dynamo:	DC 5V / 400mA
